

# STELLER SOPHOMORE DAY – Permission Slip

FRIDAY, APRIL 16, 2010

8:30 AM to 2:05 PM

BP Energy Center

Each year, Steller conducts a health education program with a focus on HIV/AIDS, human sexuality, healthy relationships, and safety. This program is presented to the sophomore class as a full-day workshop, which features RARE-T peer educators and community guest speakers.

The purpose of this day is to present students with accurate and current information on sexuality, reproductive health, and teen relationships. It includes a peer taught presentation from RARE-T about sexually transmitted infections as well as HIV/AIDS. Planned Parenthood will present on human anatomy & physiology, healthy relationships, teen sexuality issues, and may have a condom demonstration. This year we are fortunate to receive a presentation from STAR regarding sexual assault and prevention as well as healthy/safe teen relationships.

We feel it is very important that every sophomore attend this event. **Parent permission is required to attend this workshop.** The students will be excused from their regular classes, if they attend the full day workshop. Student's without permission must attend regularly scheduled classes.

Lunch (Pizza) will be provided this year courtesy of 10<sup>th</sup> grade parents/family volunteers. Students who cannot have pizza for lunch will be expected to bring a "brown bag lunch" alternative. No one will be permitted to leave for lunch due to time constraints on the speaker schedule. Hot water will be available on site; however, a microwave oven will not be available, so please plan accordingly. Steller will provide a morning breakfast snack as well.

Please call Nurse Wendy at 742-4963 if you have any questions or concerns regarding Sophomore Day.

I give my child, \_\_\_\_\_, permission to attend Sophomore Day.

parent/guardian signature: \_\_\_\_\_
