

**ALASKA
PACIFIC
UNIVERSITY**

Tour campus. Anytime.

Can't visit right away to see campus in person? APU's *virtual campus tour* is the next best thing and may be viewed from your desktop, laptop, tablet, or smartphone. This interactive, high-definition, guided tour lets you see the entire campus from our marine biology labs, to the Kellogg Farm in Palmer, AK. You may access the tour anytime by going to

www.alaskapacific.edu/future-students

Once you've taken the virtual tour, be sure to contact your Admissions Counselor and schedule an in-person tour or inquire about our open house events. We look forward to seeing you on campus (virtually and in real life!).
