

ALASKA NATIVE SCIENCE & ENGINEERING PROGRAM
Building a National Model for Excellence in Native American Higher Education Programs

Middle School Academy

Dates: June 10-21 & July 8-19

Students currently in 5th, 6th, or 7th grade who have an interest in STEM, a “B” average in math and science, and are on an Algebra I math track are eligible to apply.

What?

ANSEP has partnered with the ExxonMobil Bernard Harris Summer Science Camp (EMBHSSC) since 2010 to offer the ANSEP Middle School Academy as a summer opportunity.

Middle School Academy is a two-week experience designed to promote science, technology, engineering, and math (STEM) education and careers. During this academic and residential academy, students engage in a variety of hands-on activities, such as: building a computer, dissecting squid, testing structures on an earthquake simulation table, and much more.

Accepted students attend the academy free of charge.

Please include all documents together in one packet. Only complete applications will be considered. You will not receive notification of an incomplete application. The completed application (application form, essay, records, and recommendations) should be sent in one packet and are due March 25th.
